

Forklift Training Courses Saskatchewan

Forklift Training Courses Saskatchewan - Our forklift operator safety training has been tailored for illiteracy, thereby cutting the training time by 50%. We provide forklift training certification, lift-truck operator driver safety training evaluation, and train the trainer courses provide thorough, regulation-compliant training in industrial-powered fork truck safety and operation. Forklift pedestrian safety is likewise provided.

We have a highly experienced group of professional trainers to be able to make sure that your staff are well-trained. The certification is delivered on site by one of our licensed instructors. Those training would learn how to identify possible dangers and carry out safety inspections necessary for the safe and efficient use of a powered industrial lift truck.

Forklift Training Tips

It is vital that all workplaces utilizing forklifts have the checklist below or one equivalent on the premises. If all of the safety rules are being followed, each of these questions should be answered with a "yes". A "no" to whichever question indicates a procedural weakness that can lead to damage to equipment, accident or injury.

- 1) Is the operating area of the forklift separate from the traffic of pedestrians?
- 2) Is pedestrian access to forklift travel areas restricted by barriers?
- 3) Are pedestrian walkways well marked and provided?
- 4) Are "forklift in operation" signs clearly visible?
- 5) There are mirrors provided at blind spots for pedestrians and operators?
- 6) Alterations or changes to the daily forklift schedule has been communicated to workers?
- 7) The lift truck tires being utilized are suitable for all operating surfaces?
- 8) Is the seatbelt being used?
- 9) Is the seat in good condition?
- 10) The maintenance schedule of the forklift is being followed?
- 11) Are yearly inspections of the forklift being carried out?
- 12) Is the forklift right for the needed tasks?
- 13) Does forklift has a load chart that is readable?
- 14) Could the operators understand and read the load chart?
- 15) The chart lists the safe lifting capacity for all attachments and their uses?
- 16) Do the forklift warning devices work right?
- 17) Is the operating speed control device fitted correctly?
- 18) Is overhead cage fitted properly on the forklift?
- 19) Do the operators of the forklift have certifications to use the equipment?
- 20) Are warning signs and speed limits being observed?
- 21) Are forklift operators up to date on training for all types of lift trucks being utilized?
- 22) Do operators understand their duties to report any equipment damage and lift truck accidents?
- 23) Is the pre-test checklist reviewed every day prior to the equipment being used?
